Larry and Rox-

You may find this article interesting as there is reference to the Eastern cougar delisting, the puma taxonomic issue, recent puma documentation in Tennessee, etc. The author does manage to deliver a colorful error when referencing the panther population, but nobody's perfect. Pass along to the RO folks as you see fit.

Yeah, and you also had heard about a 10-foot-long panther with a huge head like an African lion....maybe it was an African lion.
